Having a big heart means SUPPORTING others.

To do that we need to follow 2 rules:

- 1) We use our special x-ray vision to scan their face and find out how they feel
- 2) We mimic their feelings (facial expressions and tone of voice).

LET'S PRACTICE SCANNING THESE FACES:

HOW WE USE OUR VOICE TO SHOW OUR EMOTIONS

Our voice goes up or down the rollercoaster:

When we are **sad**, our voice goes **DOWN**. When we are **happy**, our voice goes **UP**.

Let's practice saying things with a sad and happy voice.

This is so awesome.

I'm so sorry.

Let's go together.

I cannot believe it.

What are some things we can say to support our friends?

Yay, that's awesome!

I'm so sorry.

Do you need help?

Oh no.

That's too bad.

Wow that's so cool!

Oh bummer. You did so good! Sure let's do that.

Oh man. How can I help?

You got it!
