

STUTTERING AND TEMPERAMENT: PART 1

Some evidence suggests that people who stutter tend to have a more **sensitive temperament** than people who do not stutter.

A sensitive temperament can include the ability to feel your _____ and the _____ of _____ very _____. It can also include _____ to your _____.

Word List:
Emotions (2)
Deeply
Others
Reactions
Strong
Environment

Circle which statements are examples of a person with a sensitive temperament:

- A. Crying while watching a sad movie scene.
- B. Making fun of a friend who got hurt.
- C. Noticing a child who is crying and comforting that child.
- D. Feeling scared of someone who is angry and yelling.

Reflection: Do you think you have a sensitive temperament? Why or why not? _____
